About

Academic Affairs Kualii Build Community of Practice

"A community of Kualii Build users to connect, collaborate and create."

Designed to support the refreshed Strategic Plan and strategy for **Operational Alignment**.

Deploy common tools and structures to enable flexibility and efficient coordination with local solutions, also making it easier to work across the university and extend the reach of ideas and activities.

C

Connect: -Build Community -Grow Resources -All Experience Levels

C

Teams Q & A

Teams Q & A

The screenshot shows the Microsoft Teams interface for a chat channel named "AA KB CoP Chat". The "Files" tab is selected and highlighted with a green box. Below the chat header, there are options to "New", "Upload", "Edit in grid view", and "All Documents". The main content area displays a list of documents under the heading "Documents > AA KB CoP Chat".

Sent to: kualibuild@ucsd.edu

I am currently using the API called “**OFC – CCoA for PTF**” and have access to a number of ‘linked auto-filled gadgets’ based on the Project Task entered by the customer. One of the options available is called “**Funding Source Name**” and I am ****looking for the Funding Source Number**** which I don’t see. Is it available, can it be added? Who should I ask for this specific question?

We are building a new KB app to gather customer information so that a Business Office can validate and then enter the info into the RMP for recharges. The campus RMP tool will automatically display the associated “NUMBER – TITLE” if there is one available (see image). ****Is it possible for the “OFC – CCoA for PTF” API could also make this available?*****

Open Q & A - Discussion
